# Aesthetic medicine

Allure is a Medical Aesthetic Center, officially registered and controlled by the Ministry of Health of the Generalitat of Valencia under registration number: 23300.

We are a team that focuses on aesthetic medicine as the medicine of today. If you are looking for a unique and personalized treatment, our Allure Aesthetic Clinic is your clinic.

Our medical aesthetic specialist, Dr. Ivan Pérez Barreto, has built a very good reputation in his professional career. In addition to his daily work with patients, he trains other doctors so that they can also master the latest techniques in a safe manner. His personal favorite is the recollagenization treatment and the well-known thread lift, but of course he carries out all medical-aesthetic treatments to perfection. You can see the results of his work on Instagram: @drperezbarreto

We have a very diverse range of treatments and an informative consultation is free. This way you can obtain a fully personalized diagnosis and quote without any obligation. The prices shown below are indicative only as each patient's needs are different.

## AESTHETIC FACIAL TREATMENTS, BOTOX:

With this medical aesthetic treatment we can temporarily eliminate facial wrinkles. The effect remains visible for about 6 months and is suitable for the upper part of the face, eliminating forehead wrinkles, the brow fold and crow's feet. It can also be applied to the lower part and neck. Prices range from €150 for crow's feet to €450 for the entire face and neck together.

## AESTHETIC FACIAL TREATMENTS, RECOLLAGENIZATION:

a perfect treatment for both men and women of any age to restore sagging and aging skin without adding volume or losing the essence of the face. It not only corrects wrinkles and lines, but also treats the different layers under the skin, naturally and long-lasting. It is a treatment in which, unlike others, the product is completely absorbed and converted into collagen, leaving no "foreign" components in the skin. Price from €600

## AESTHETIC FACIAL TREATMENTS FACELIFT WITHOUT SURGERY, THREAD LIFT:

using soluble tension threads, made of biocompatible and biodegradable materials, such as polydioxanone (PDO), which are introduced into the subcutaneous layer of the skin using special cannulas. These threads act as support and lift and firm the skin from within. In addition, they stimulate the production of collagen and elastin, important components for keeping the skin firm and elastic. Similar to recollagenization, these threads are completely absorbed, leaving in place an invisible band of skin's own collagen, naturally lifting the facial tissues. Price from €200

**AESTHETIC FACIAL TREATMENTS RHINOPLASTY WITHOUT SURGERY:** If you are not happy with the shape of your nose and want to improve it, place yourself in the expert hands of our aesthetic specialist, who will provide a stunningly natural result. Price from €350

**AESTHETIC FACIAL TREATMENTS, CHIN PROJECTION:** Aesthetic medicine is developing at an impressive pace and this allows us to offer treatments such as chin augmentation or projection without surgery with very surprising results, without the need for recovery and with immediate results. It is made with a special hyaluronic acid and lasts between one and two years. Price from €350

**AESTHETIC FACIAL TREATMENTS, CHEEKBONE FILLER:** highlighting cheekbones is one of the most requested treatments in cosmetic clinics today. Special hyaluronic acid+ provides long-lasting harmonization and beautification of the face. Price from €600

**AESTHETIC FACIAL TREATMENTS FOR LIPS:** Lips become dehydrated and lose their volume over the years. We have two treatments available for this: Hydration: makes the lips soft and supple and provides discreet lip volume. Enlargement: we restore the volume and definition of our lips. All this of course taking into account age, face shape, etc. Price from € 250, although there are also cases where more than one injection or session is needed.

**AESTHETIC FACIAL TREATMENTS, MEDICAL PEEL:** A medical peel involves applying various chemicals to the skin with the aim of exfoliating the outer layers and eliminating their imperfections, repairing a new layer of skin and becoming softer and healthier. The price can vary greatly depending on the selection of active ingredients and the characteristics of the skin. Price from €50

**AESTHETIC FACIAL TREATMENTS, WARTS AND BROKEN CAPILLARIES:** electro coagulation is the burning away of benign skin conditions such as rosacea and fibroids with electric current. Price from €50

Do not hesitate to consult our cosmetic doctor, he will analyze your face and, after a complete diagnosis, offer the most appropriate treatment. Make an appointment now for honest advice without any obligation!

· **NORMAL MANICURE** 30 min 18,95  
(filing, massage, cut and push cuticles and dead skin with cutter or drill)

· **SPA MANICURE** 1 h. 29,95  
(filing, exfoliation, soak in water, massage, push cuticle, paraffin bath)

· **RUSSIAN MANICURE** 90 min. 40  
What exactly is Russian manicure? The Russian manicure is performed with an electric file where the nail is being cleaned and the excess skin of the cuticle completely removed. The ceramic polish is applied as close as possible to the cuticle, creating a beautiful curve in the nail. We therefore ensure a more perfect finish, which will last at least a week longer than with a normal gel polish treatment.
