CAPILLARY TREATMENTS

Do you know that cleaning and exfoliating the scalp is as important as to the facial or body?

The concern for smooth skin without impurities is constant, but what about the scalp? Without a doubt, it is the great forgotten.

In adulthood, hair loss is very common and, in many cases, it is because our scalp needs exfoliation and cleaning the hair follicle, which is the part of the skin that gives hair growth. But how can we clean the scalp?

TAKE CARE OF YOUR SCALP

Kapyderm Laboratories has created the solution...
 Organic peat, available in our hairdressing salon!

Peat is a 100% natural product composed of plant-based nutrients that acts as a decongestant and oxygenates the deepest layers of the skin and cuticle in order to facilitate healthy hair growth.
